Port 22 (SSH) is currently open to all IPv4 addresses, indicated by 0.0.0.0/0 in the inbound rule in your security group. For increased security, consider restricting access to only the EC2 Instance Connect service IP addresses for your Region: 18.206.107.24/29. Learn more.

Instance ID

i-0533f67a30f816511 (Linux Server)

Connection Type

☒ Connect using EC2 Instance Connect

Connect using the EC2 Instance Connect browser-based client, with a public IPv4 or IPv6 address.

☐ Connect using EC2 Instance Connect Endpoint

Connect using the EC2 Instance Connect browser-based client, with a private IPv4 address and a VPC endpoint.

☒ Public IPv4 address

54.92.177.240

☐ IPv6 address

-

Username

Enter the username defined in the AMI used to launch the instance. If you didn't define a custom username, use the default username, ec2-user.

ec2-user

Note: In most cases, the default username, ec2-user, is correct. However, read your AMI usage instructions to check if the AMI owner has changed the default AMI username.

The screenshot shows the AWS Management Console interface for an EC2 Instance Connect session. The browser tabs include 'Launch AWS Academy Learner', 'Instances | EC2 | us-east-1', and 'EC2 Instance Connect'. The address bar shows the URL: `us-east-1.console.aws.amazon.com/ec2-instance-connect/ssh?addressFamily=ipv4&connType=standard&instanceId=i-0533f67a30f816511&osUser=ec2-user®ion=us-east-1&sshPort=...`. The console header shows the AWS logo, 'Services' link, a search bar, and the current region 'N. Virginia' with a user profile 'voclabs/user3474188=Shubham_Handore @ 9375-0261-5565'. A blue banner at the top contains a 'Keyboard shortcut' tip: 'To tab out of the terminal window and select the next button element, press the left and right Shift keys together.' with a 'Close permanently' button. The terminal window displays the Amazon Linux 2023 logo and the URL `https://aws.amazon.com/linux/amazon-linux-2023`. The session details at the bottom show the instance ID 'i-0533f67a30f816511 (Linux Server)' and public/private IP addresses. The bottom of the image shows the Windows taskbar with various application icons and the system clock.
